Flutter Intermediate	Java Advanced
Python Advanced	Data Structures Intermediate
Object Oriented programming Advanced	Design patterns Intermediate

THINGS I'VE WORKED ON

Reactive Resume Builder
<https://snayes.netlify.app/>
Reactive Resume builder that works for you. A few of the important features that make it awesome are minimalistic UI/UX, extensive customizability, portability, regularly updated templates, etc. For more information, check out <https://snayes.netlify.app/>

OpenDoor_LMS
<https://snayes.netlify.app/>
A learning management mobile app for high schools. I developed this app during the MTN business app of year, along with friends.

PEDESTRIAN SAFETY SYSTEM
<https://snayes.netlify.app/>
A Deep learning mobile camera app that uses the back camera of mobile phone to detect vehicles on the road and notify pedestrians of any coming vehicles when crossing the road. Especially when a pedestrian is on the phone call. This was my final year project and I passed with a distinction.
